## Heartland Career Center

### Digital Design Instructor

Heartland Career Center is searching for a dynamic individual who is looking for an opportunity to positively affect high school students in the field of Digital Design.

### Expectations:

Teaching the principles of Digital Design focusing on the following concepts:

- Providing engaging lesson plans and activities aligned with curriculum standards and student needs.
- Provide a fundamental understanding of graphic design principles, including typography, color theory, layout, and visual communication.
- Demonstrate and guide students in using industry-standard graphic design software (e.g., Adobe Photoshop, Illustrator, InDesign).
- Provide instruction on various design mediums, including print, web, and digital media.
- Evaluating student work and providing constructive feedback to foster growth and development.
- Create and administer assessments to track student progress and understanding of concepts.
- Maintain accurate records of student attendance, grades, and progress.
- Provide employability skills that will prepare students for careers in the Digital Design field.

### Qualifications:

- The ideal candidate will possess successful career experience in the Digital Design industry or a degree in a Graphic Design field. The candidate must have verifiable occupational experience in a related field, which will permit the candidate to be licensed through the Indiana Department of Education.
- Ability to develop rapport and demonstrate professionalism with high school students, parents, staff and community.
- Demonstrate the ability to work in a collaborative environment of education professionals to create the best career ready skills for our students.
- Be willing to continually strive to build a skill set that meets the needs of our students, educational partners and potential employers.
