Heartland Career Center Criminal Justice Program

Dear Parent/Guardian,

My name is Chad Hacker; I want to thank you for allowing your student to be a part of Heartland Career Center. As the Criminal Justice Instructor, I want to let you know that I welcome your student into my classroom and take having them in my classroom seriously. I also want to let you know that you can contact me whenever you need, please save the information below.

It is my goal to make this class challenging, informative, and rewarding. Your student can actively participate during the lessons to make these goals achievable. There will be several guest speakers throughout the year who will share their personal journeys and what led them to the Criminal Justice field. A wonderful part of this program is the students can earn free college credits as they complete each Criminal Justice course through Vincennes University. Whether your student has ambitions to pursue a career in the Criminal Justice Field, desires to seek career opportunities, or just wants to earn free college credit, I welcome them into my learning environment.

If you ever have questions about your student's grades or classroom participation, please ask. All students can review their grades at any time, and I keep all students posted on their individual progress throughout the semester. I welcome classroom participation and student involvement. I welcome your input and involvement, too. If your student is engaged in the material and lessons, they will succeed in this class. I am confident that your student and I will have a wonderful year together.

Sincerely,

Chad Hacker

Criminal Justice Instructor
